

1304.6 - Tasmanian Key Indicators, Aug 2009

Previous ISSUE Released at 11:30 AM (CANBERRA TIME) 16/09/2009

Summary

Contents

CONTENTS

In this Issue

Updates: Labour Force, Wages and Prices, Finance, Consumption and Investment, State Accounts, Health

Labour Force

Includes: Unemployment Rate, Number of Unemployed, Number of Employed, Participation Rate, Number of Volunteers, Volunteer Rate, Total Annual Hours of Voluntary Work, Median Annual Hours of Voluntary Work

Wages and Prices

Includes: CPI All Groups, Price Index of Materials Used in House Building, House Price Index, Wage Price Index, Average Weekly Earnings, Median Household Income

Tourism

Includes: Number of Hotels, Motels and Serviced Apartments, Takings From Accommodation: Hotels, Motels and Serviced Apartments

Finance

Includes: Housing Finance for Owner Occupation, Private Capital Expenditure

Consumption and Investment

Includes: Sales of New Motor Vehicles, Retail Turnover at Current Prices, Number of Dwelling Units Approved, Number of Dwelling Units Commenced

State Accounts

Includes: State Final Demand, International Trade - Tasmania, Gross State Product

Population

Includes: Estimated Resident Population, Net Interstate Migration, Net Overseas Migration, Population Growth Rate, Aboriginal and Torres Strait Islander Population, Population Born Overseas, Population by Age, Median Age of Population, Fertility Rate, Life Expectancy at Birth

Living Arrangements

Includes: Crude Marriage Rate, Crude Divorce Rate, Number of Households, Lone Person Households, Number of Families, Couple-Only Families, One Parent Families

Mortality

Includes: Standardised Death Rate, Infant Mortality Rate

Education

Includes: Year 10-12 Apparent Retention Rate, Proportion of Year 5 Students Reaching National Benchmarks for Reading, Writing and Numeracy

Health

Includes: Current Daily Smokers, Overweight/Obese BMI, Inadequate Physical Exercise, Risky/High Risk Alcohol Consumption

In This Issue

IN THIS ISSUE

Tasmanian Key Indicators (cat. no. 1304.6) provides an overview of economic and social indicators and is released on a monthly basis. Updates this month: **Labour Force, Wages and Prices, Finance, Consumption and Investment, State Accounts and Health.**

Explanatory Notes are not included in the form found in other ABS publications. Please see the Explanatory Notes contained in related ABS publications (links to source documents are provided in the summary tables).

For further information about these and related statistics, contact the ABS on 1300 135 070 or email client.services@abs.gov.au.

If you have any comments or feedback about this product please email tasmania.statistics@abs.gov.au or phone Helen Marmion on (03) 6222 5902.

Labour Force

LABOUR FORCE

	Source	Tas. value	Aust. value	Change previous month (Tas)	Change corresponding month previous year (Tas)
Aug 2009					
Unemployment rate(a) - trend	6202.0	4.8%	5.8%	-0.1 pts(b)	0.7 pts(b)
No. of unemployed persons(a) - trend	6202.0	11 600	668 700	-2.5%(b)	14.7%(b)

Total dwelling units commenced (no.) - trend	8752.0	676	-6.5(c)	-7.5(c)

np not available for publication

(a) Following the Federal Government Budget in May 2009, the eligibility period for the Small Business and General Business Tax Break was extended to December 2009. The rebate level was also increased for small businesses, allowing eligible businesses to claim an increased tax deduction on the purchase of new motor vehicles. If the trend estimates in the publication were to be calculated without fully accounting for this irregular event, they would be likely to provide a misleading view of the underlying trend in new motor vehicle sales activity. As a result, the new motor vehicle sales trend series has been suspended from May 2009. The trend series will be reintroduced when more certainty emerges in the underlying behaviour of new car sales. Please see the "Suspension of trend estimates" section of Sales of New Motor Vehicles, Australia, Jul 2009 (cat. no. 9314.0).

(b) The Federal Government Economic Security Strategy Package implemented in December 2008 has impacted on Australian retail turnover. If the trend estimates were to be calculated without fully accounting for this irregular event, they would be likely to provide a misleading view of the underlying trend in retail activity. Until data is available in future months, it is not possible to determine the trend in retail turnover through the period affected by the stimulus package. As a result, the retail trend series have been suspended as at November 2008. Please see the "Suspension of trend estimates" section of Retail Trends, Australia, Dec 2008 (cat. no. 8501.0).

(c) Estimates of change have been calculated using unrounded estimates, and may be different from, but are more accurate than, movements obtained from the rounded estimates.

Living Arrangements

LIVING ARRANGEMENTS

	Source	Tas. value	Aust. value
At 30 Jun 2007			
No. of households	4442.0	199,000	8 071 000
Lone person households as proportion of total households	4442.0	27.1%	24.8%
No. of families	4442.0	142 000	5 905 000
Couple-only families as proportion of all families	4442.0	44.4%	40.1%
No. of families with children aged 0-17 years	4442.0	61 000	2 576 000
One parent families with children aged 0-17 years as proportion of all families with children aged 0-17 years	4442.0	19.7%	20.1%

2007

Crude marriage rate (per 1,000 population)	3306.0.55.001	p5.7	p5.5
Crude divorce rate (per 1,000 population)	3307.0.55.001	2.3	2.3

p preliminary figure or series subject to revision

More Detailed Source Information

Divorces, Australia (cat. no. 3307.0.55.001)
 Family Characteristics and Transitions, Australia (cat. no. 4442.0)
 Marriages, Australia (cat. no. 3306.0.55.001)

Mortality

**MORTALITY**

	Source	Tas. value	Aust. value
2007-08			
Standardised death rate (per 1,000 population)	3101.0	p6.95	p6.03
Infant mortality rate (per 1,000 live births)	3101.0	p4.35(a)	p4.11(a)

p preliminary figure or series subject to revision

(a) Tasmanian infant mortality rates are based on relatively small numbers, so caution is advised when comparing with the Australian rate.

More Detailed Source Information

Australian Demographic Statistics (cat. no. 3101.0)

Education

**EDUCATION**

	Source	Tas. value	Aust. value
2008			
Reading - proportion of year 5 students at or above national minimum standard(a)(b)	MCEECDYA	89.7%(c)	90.9%(d)
Writing - proportion of year 5 students at or above national minimum standard(a)(b)	MCEECDYA	92.6%(e)	92.5%(f)
Numeracy - proportion of year 5 students at or above national minimum	MCEECDYA	92.1%(g)	92.6%(h)

standard(a)(b) Year 10 to year 12 apparent retention rate (full-time students)	4220.0	64.9%(i)	75.6%(i)
-----------------------------------------------------------------------------------------	--------	----------	----------

(a) Note that the 2008 NAPLAN tests replace previous individual state and territory-based tests within a new assessment framework. The new national scale is not directly comparable with previous state and territory-based tests and therefore with previous years' benchmark results.

(b) Students who were absent or withdrawn from testing are not classified as assessed students and are not included in the benchmark calculations. The proportion of absent and withdrawn students varies considerably across jurisdictions, hence caution should be exercised when comparing results.

(c) The achievement percentages reported in this table are subject to error and have 95% confidence intervals. The confidence interval for year 5 Tasmanian students reaching the reading benchmark is 1.4%, meaning there is a 95% chance that the true percentage lies between 88.3% and 91.1%.

(d) The achievement percentages reported in this table are subject to error and have 95% confidence intervals. The confidence interval for year 5 Australian students reaching the reading benchmark is 0.3%, meaning there is a 95% chance that the true percentage lies between 90.6% and 91.2%.

(e) The achievement percentages reported in this table are subject to error and have 95% confidence intervals. The confidence interval for year 5 Tasmanian students reaching the writing benchmark is 1.1%, meaning there is a 95% chance that the true percentage lies between 91.5% and 93.7%.

(f) The achievement percentages reported in this table are subject to error and have 95% confidence intervals. The confidence interval for year 5 Australian students reaching the writing benchmark is 0.2%, meaning there is a 95% chance that the true percentage lies between 92.3% and 92.7%.

(g) The achievement percentages reported in this table are subject to error and have 95% confidence intervals. The confidence interval for year 5 Tasmanian students reaching the numeracy benchmark is 1.2%, meaning there is a 95% chance that the true percentage lies between 90.9% and 93.3%.

(h) The achievement percentages reported in this table are subject to error and have 95% confidence intervals. The confidence interval for year 5 Australian students reaching the numeracy benchmark is 0.2%, meaning there is a 95% chance that the true percentage lies between 92.4% and 92.8%.

(i) Note these figures are final.

About this Release

Tasmanian Key Indicators is a web-based product containing the latest social and economic summary data on Tasmania, including labour force, wages and prices, tourism, finance, consumption and investment, state accounts, population, living arrangements, mortality, education and health. It is released on a monthly basis.

Tasmanian Key Indicators features links to source publications on the ABS website to enable readers to explore particular topics in more detail. The data is also presented in an Excel spreadsheet in the Downloads tab. Replaces: Tasmanian Statistical Indicators (cat. no. 1303.6).
